ISOVALENT-ELITE

INTRODUCING OUR NEW EXCLUSIVE CISCO COURSE

DURATION: 5 DAYS | **PRICE:** USD 4195 | **CLCs:** 42 | **CE:** 50

Master enterprise Kubernetes networking with Cilium, eBPF & Isovalent Enterprise.

A new 5-day, hands-on course built to help engineers design, deploy, secure, and operate production-ready Kubernetes environments with confidence

YOU WILL LEARN TO

- Deploy Cilium in production Kubernetes environments
- Implement identity-based security with Cilium Network Policies
- Expose services securely using Gateway API
- Operate multi-cluster environments with Cluster Mesh
- Observe, troubleshoot and optimize with Hubble
- Enhance runtime security with Tetragon

COURSE HIGHLIGHTS

OFFICIAL CISCO COURSE
Developed exclusively by Firefly

INSTRUCTOR-LED TRAINING
Learn from experts with real-world experience

EXTENSIVE HANDS-ON LABS
Build skills through practical, real-world scenarios

CILIUM & eBPF TECHNOLOGY
Deep dive into the eBPF-powered platform for cloud-native

ENTERPRISE BEST PRACTICES
Proven strategies for secure and scalable operations

DURATION
5 DAYS

FORMAT
LECTURE & LAB

HANDS-ON
PRACTICAL LABS
